FIG. 16

A cross-sectional view of a multi-layered structure 116. The structure consists of several layers: a top layer 206, a middle layer 210, and a bottom layer 212. The top layer 206 and middle layer 210 are shown with diagonal hatching. The bottom layer 212 is shown with a different hatching pattern. The structure 116 is positioned on a substrate 108, which is also hatched. A layer 604/605 is located between the structure 116 and the substrate 108. A layer 612 is shown on the substrate 108, and a layer 608 is shown on the structure 116. The structure 116 is also labeled with 218.
